More information about wage rates

There are five skill levels under the TCF Award and each skill level has a different weekly rate of pay. Each is based on the level of skills of the employee as well as the nature and complexity of the work they perform.

These are set out in Clause 20 and Schedule B (Classifications/Skill Levels) and Schedule C (Definitions) of the [TCF Award](#).

The weekly rates may change each year so always check the current version of the TCF Award for the most up-to-date rates.

Anyone responsible for the construction of a finished garment will usually be classified at a minimum of a skill level three. **Outworkers are employed at a skill level 3 and would therefore receive a weekly wage of \$1014.70 (which is an hourly rate of \$26.70).** On top of this you are required to pay superannuation, WorkCover insurance and leave entitlements for any outworker you employ.

You can contact the Textile, Clothing and Footwear (TCF) Union on 1800 800 135 to help you work out what the skill level is for various kinds of work and the new wage rates and allowances generally.
